

## Voorbeeld van Exorfine uitslag

### Analysis results

Your reference: M. Jansen

Our reference: 85028

Date of birth: 13-9-1955

Date of analysis: 20-6-2012

Opioid peptides from bovine casein	Value	Reference values	NF/H
$\beta$ -casomorphin 1-3		< 160	NF
$\beta$ -casomorphin 1-4 , amide		< 160	NF
$\beta$ -casomorphin 5		< 200	NF
$\beta$ -casomorphin 7	<b>290</b>	< 120	H
$\beta$ -casomorphin 8		< 160	NF
Opioid peptides from gluten	Value	Reference values	NF/H
Gliadorphin		< 130	NF
Gluten exorphin A5		< 240	NF
Gluten exorphin B5	<b>184</b>	< 140	H
Gluten exorphin C	<b>402</b>	< 180	H
Opioid peptides from microbial sources	Value	Reference values	NF/H
Dermorphin	<b>315</b>	< 180	H
Opioid peptides from other sources	Value	Reference values	NF/H
Soy morphin		Unknown	NF
Rubisculin	<b>143</b>	Unknown	

**H: Higher than the reference value**

**NF: Not Found**

The analysis results can not be used to make or exclude a disease diagnosis, and it should be specifically emphasized that the analysis does not say anything about celiac disease or allergies. It is important to emphasize that all analysis results shall be used with care and that the test result must always be weighed against the clinical information.
